                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            US-10-159-012-19

Sequence 19, Application US/10359012

Publication No. US203022419A1

GENERAL INFORMATION:

APPLICANT: THE JOHNS HOPKINS UNIVERSITY SCHOOL OF MEDICINE

APPLICANT: TERMAN, JOH R.

APPLICANT: TERMAN, JOH R.

APPLICANT: MG, Tiany

APPLICANT: MG, Tiany

APPLICANT: MG, Tiany

APPLICANT: MG, Tiany

TILE OF INVENTION: MOLECULES INTERACTING WITH CASL (MICAL) POLYNUCLEOTIDES, POLYPEPT

TILE OF INVENTION: AND METHODS OF USING THE SAME

FILE REPERENCE: JU1840-3

TITLE OF INVENTION: MUMBER: US/10/359,012

CURRENT FILING DATE: 2003-02-04

PRIOR FILING DATE: 2002-06-13

PRIOR FILING DATE: 2002-06-13

PRIOR PELICATION NUMBER: US 60/384,302

PRIOR APPLICATION NUMBER: US 60/384,302

PRIOR APPLICATION NUMBER: US 60/384,302

PRIOR PELING DATE: 2002-06-13

PRIOR PELING DATE: 2002-06-04

SOFFWARE: PATENTING DATE: 2002-02-04

Sequence 44191. Application US/10767701
Publication No. US20040172684A1
GENERAL INFORMATION:
APPLICANT: Kovalic, David K.
APPLICANT: Zhou, Yihua
APPLICANT: Cao, Yongwei
TITLE OF INVENTION: Nucleic Acid Molecules and Other Molecules Associated With
TITLE OF INVENTION: Plants and Uses Thereof For Plant Improvement
FILE REFERENCE: 38-21(53535)8
CURRENT APPLICANTION UMBER: US/10/767,701
CURRENT APPLICANTION UMBER: US/10/767,701
NUMBER OF SEQ ID NOS: 63128
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     APPLICANT: La Rosa, Thomas J.

Sequence 50418, Application No. US20040172684A1

Publication No. US20040172684A1

GENERAL INFORMATION:

APPLICANT: Kovalic, David K.

APPLICANT: Zhou, Yihua

APPLICANT: Cao, Yongwei

TITLE OF INVENTION: Nucleic Acid Molecules and Other Molecules Associated With

TITLE OF INVENTION: Plants and Uses Thereof For Plant Improvement

FILE REFERENCE: 38-21(53535)B

CURRENT APPLICATION NUMBER: US/10/767,701

CURRENT FILING DATE: 2004-01-29

NUMBER OF SEQ ID NOS: 63128

SEQ ID NO 50418

LENGTH: 154
APPLICANT: Cao, Yongwei

US-10-369-493-1505

Sequence 1505, Application US/10369493

Publication No. US20030233675A1

GENERAL INFORMATION:

APPLICANT: Goa, Yongweit

APPLICANT: Slater, Steven C.

APPLICANT: Slater, Steven C.

APPLICANT: Goldman, With Barry S.

APPLICANT: Chen, Xianfeng

TITLE OF INVENTION: EXPRESSION OF MICROBIAL PROTEINS IN PLANTS FOR PRODUCTION OF FILE REFERENCE: 38-10(52052)8

CURRENT APPLICATION NUMBER: US/10/369,493

CURRENT FILING DATE: 2003-02-28

PRIOR FILING DATE: 2002-02-21

PRIOR FILING DATE: 2002-02-21

SEQ ID NOS: 47374

LENGTH: 1216
